Ultra Polarized

5.0 COLLECTION

Advanced Polarizing Lens Technology

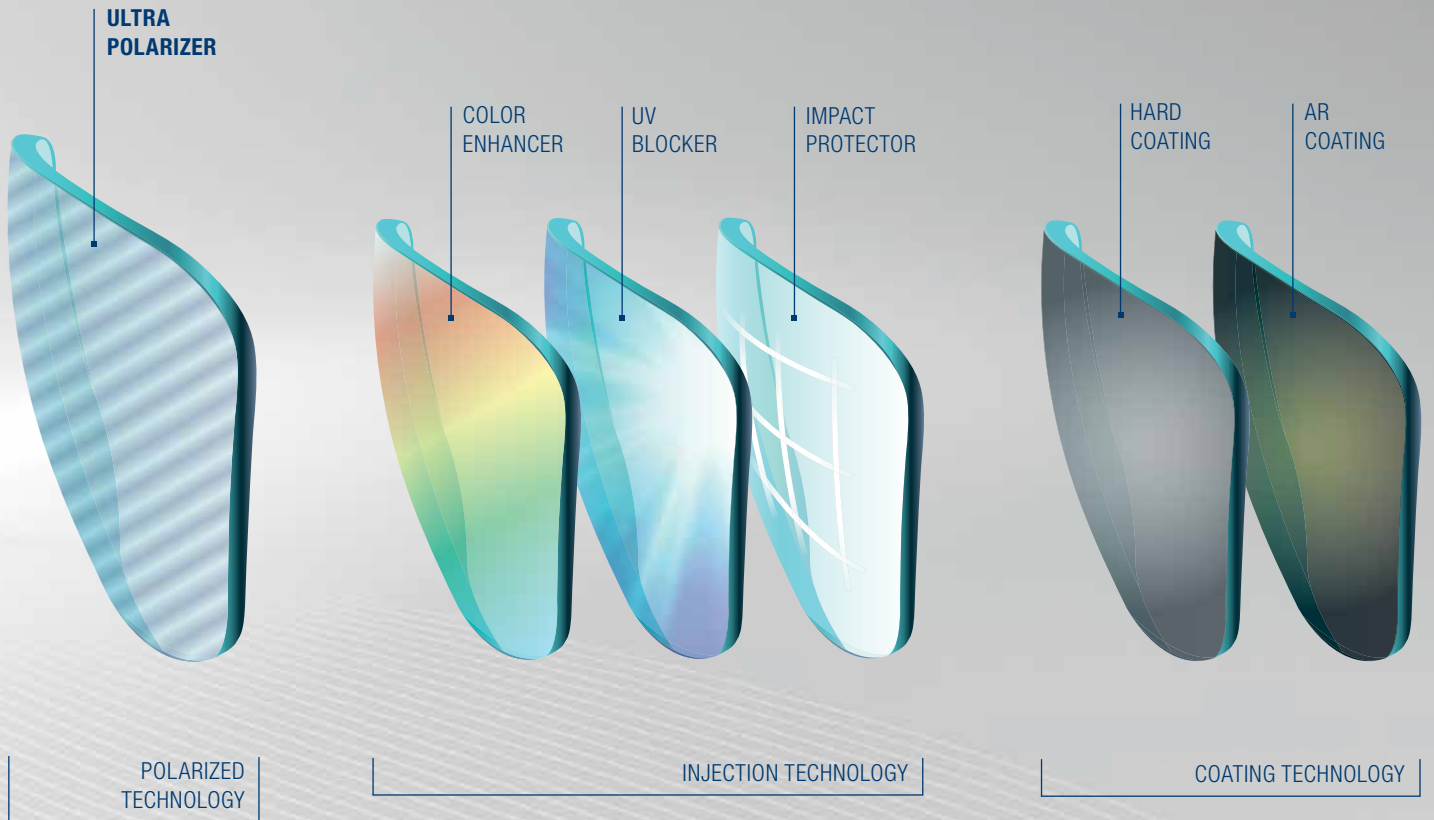

SETTING THE NEW STANDARD FOR LENS PERFORMANCE

- High efficiency ultra polarizer – made in Japan with 99% efficiency
- Precision polycarbonate/polarizer wafer injection – engineered and manufactured in Japan
- Premium polycarbonate polymer – made in Japan
- High impact-resistant with the 2.2 mm polycarbonate lens
- Maximum UV protection all the way up to 400 nanometers
- High quality hard coat on front and back of lens
- Exceptional performance 10 layer anti-reflective coating
- Outstanding optics exceeding all measures for optical class 1 performance
- Superior Japanese polycarbonate for exceptional lens clarity
- Final embellishment with multilayer mirror coating
